

Structural Concepts®
DELIVERING FRESH. ALWAYS.™

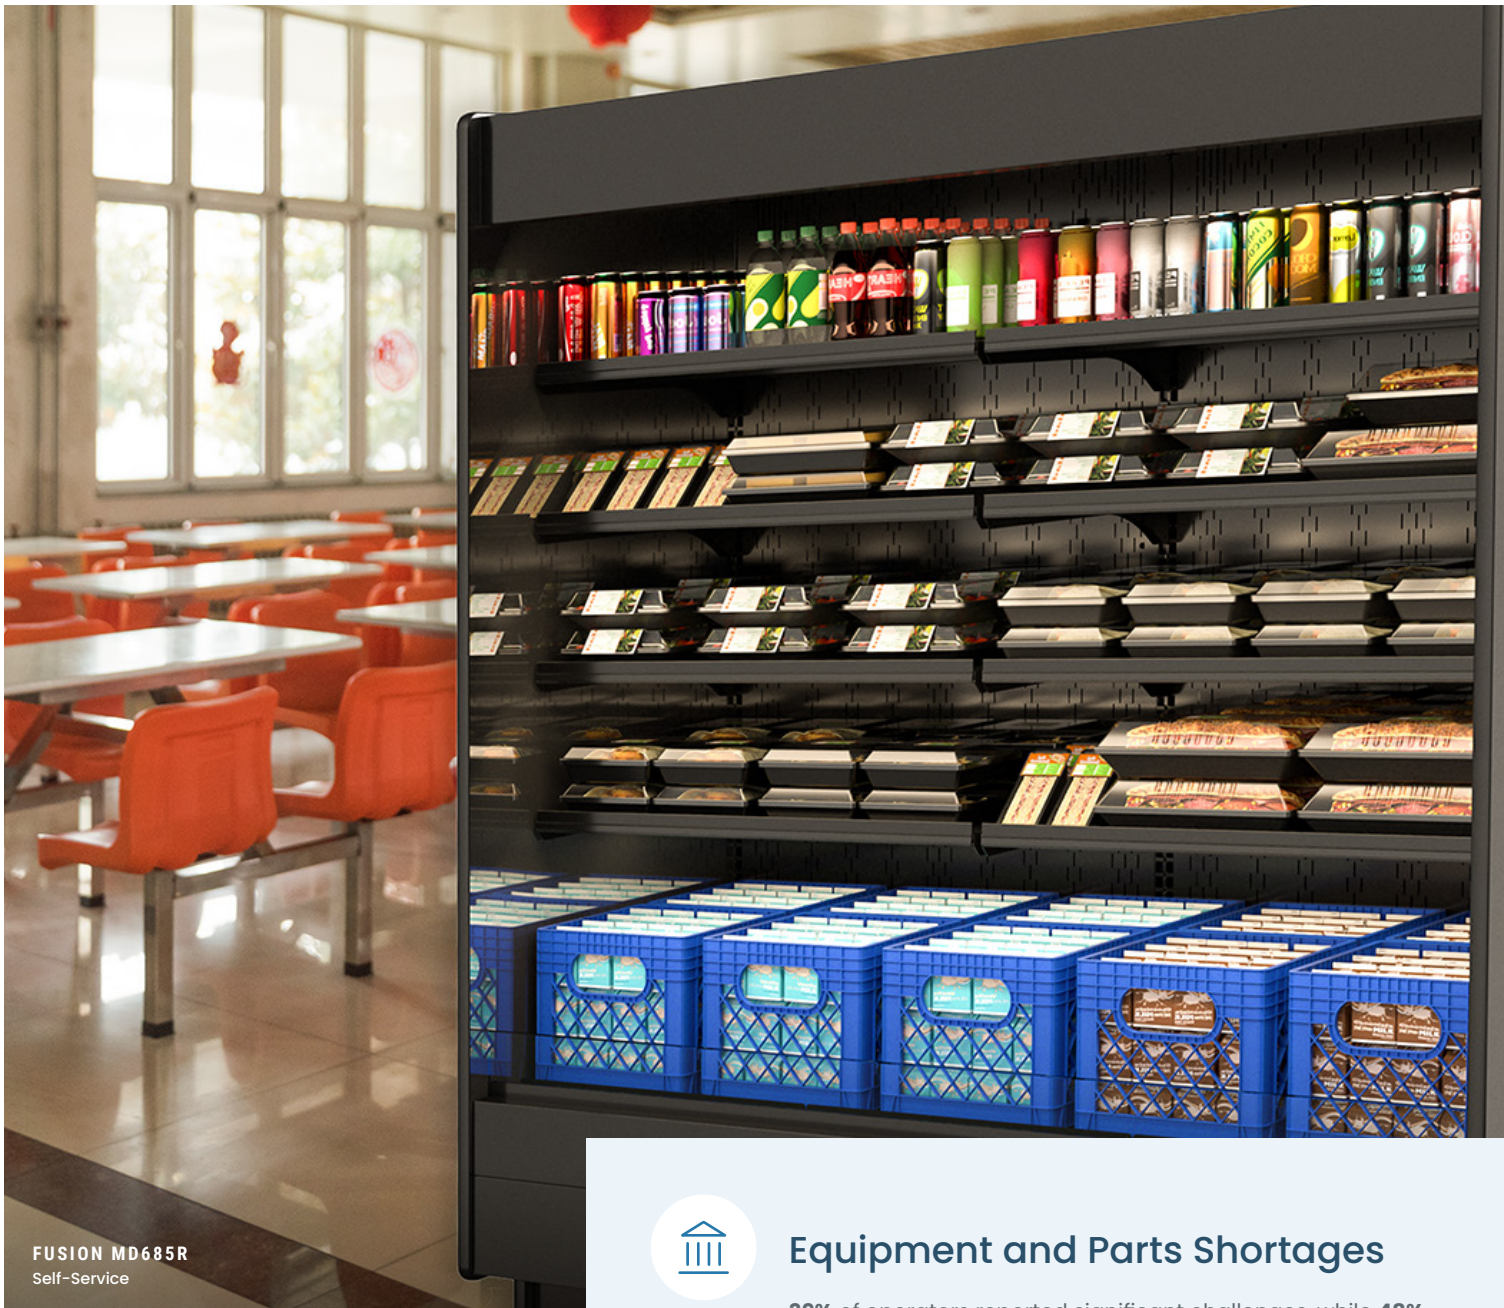

K-12 Education Solutions

Serve more students quickly and efficiently while providing fresh food offerings.

OASIS C63R-UC
Self-Service

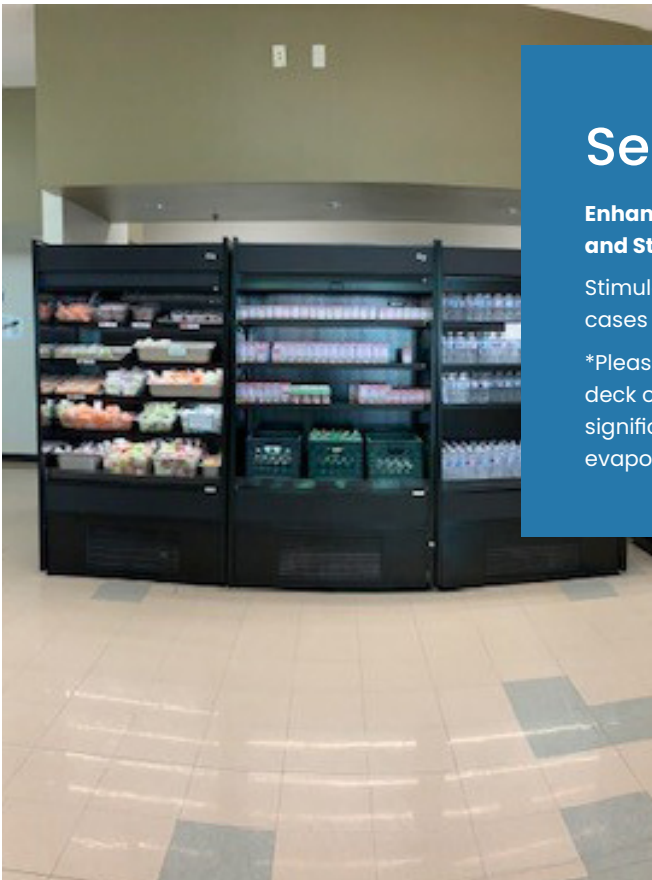

Structural Concepts can help schools completely **rethink its post-pandemic operational strategies by offering more proper hot and cold holdings and batch-food safety**, adapting to menu changes, and improving the sustainability performance in cafeterias.

Equipment and Parts Shortages

39% of operators reported significant challenges, while **48%** said there are moderate challenges in facing equipment and parts shortages with school foodservice programs.

School Nutrition Trends Report

Self-Service

Enhance Convenience and Speed of Service to Time-Starved Faculty and Students

Stimulate sales by offering a variety of grab & go options with self-service cases which may accommodate milk crates on the bottom base.

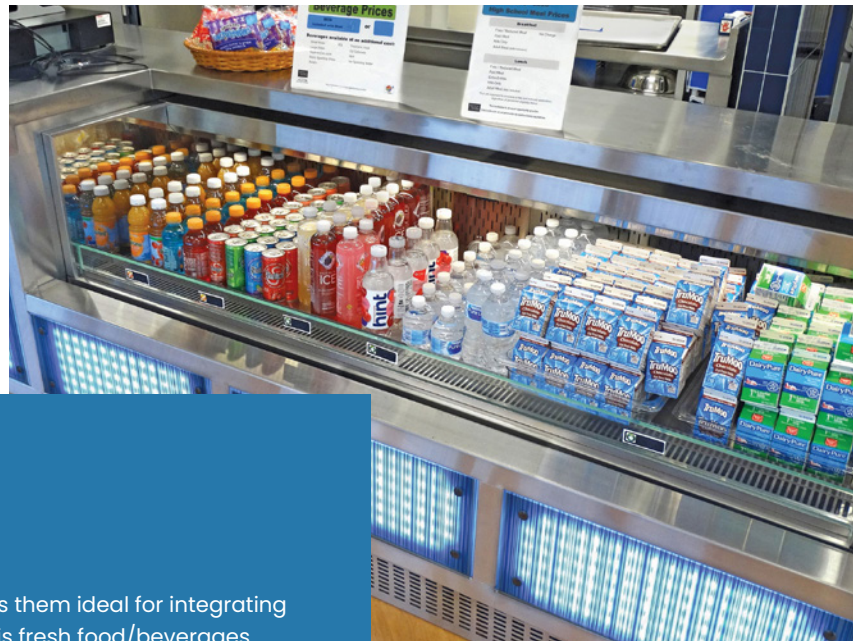

*Please consider the weight of the fully stocked milk crates on the bottom deck of the merchandiser. A crate full of milk or other beverages weighs significantly more than a single layer. The deck pan may sag and hit the evaporator fans.

Undercounter

Meet Students on the Way In and Out

The shape of these display cases makes them ideal for integrating into counters so that all customers see is fresh food/beverages, making these modular units the perfect grab-and-go solution.

Self-Service

Autonomous Retail Merchandiser

Enhance Convenience with Automation

Provide a cashier-less experience and increase the speed and accuracy of transaction for those looking for a convenient 24/7 fresh food selection. Offset labor challenges, create an appealing merchandising format with increased capacity, and seamlessly streamline inventory management to serve food deserts.

Structural Concepts helps **streamline student and faculty traffic flow** with a variety of solutions within serving lines and/or near checkout with full service and self-service options to complement new and existing foodservice menus.

Address Growing Labor Challenges

As district enrollment increases, so does the percentage of school programs identifying staff shortages as a significant challenge. **43%** of districts with fewer than **1,000** total students report staff shortages as a significant challenge. **79%** of districts with **25,000** or more total students report staff shortages as a significant challenge.

Space saving innovations from Structural Concepts, including Hot & Cold Combinations, Countertop Displays, Self-Service Units, and Undercounter Merchandisers that can be built into or adjacent to a serving line **helps schools increase their offerings without expanding their footprint.**

Leverage Space Saving Solutions

With space being so precious in the typical K-12 foodservice environment, making greater use of vertical space is trending when it comes to space savings at the school cafeteria level.

Combinations

Create a Destination for Fresh Food by Utilizing Space-Saving Innovative Display Options

Combination models optimize floor space with multiple display areas in a single piece of equipment, providing flexibility to offer a variety of fresh foods within different methods for serving the student.

Combination

Hot and Cold Combinations

Elevate the Student Experience by Offering More Options

The refrigerated & heated self-service case provides a vertical combination of grab & go refrigerated and heated display offering both hot and cold temperatures in the same case.

OASIS B3924RH
Combination

REVEAL NR3647RSSA.MOB
Mobile

Mobile

Leverage High Traffic Areas – Temporarily or Permanently.

Mobile refrigerated self-service displays on casters use less floor space by displaying product vertically instead of horizontally and can be easily pushed up against shelving, walls, columns, or used back-to-back.

With a commitment to **reliability and performance**, and providing the **highest service support**, Structural Concepts provides a **level of unparalleled value** to schools and institutions by **making it easier to display and sell more** fresh food and beverages today – and tomorrow.

Refrigerated Door Merchandisers

Open the Door to Profitability

Create a seamless transition from open cooler merchandisers that create more merchandising space to satisfy students desire for fresh food while reducing energy costs by 82%.
