

## Open the Door to Profitability with Refrigerated Door Merchandisers

**OASIS BD3632**  
Self-Service

**OASIS BD4732**  
Self-Service

Containing the same in-house pioneered, **award-winning, self-contained refrigeration technology** found in our open coolers, these door-equipped merchandisers require **less energy** to operate, while providing the same presentation and pack out of fresh food.

Delivering reliability, unmatched ease of operation, and strong performance, these purpose-built refrigeration solutions are available in single and two-door configurations.

Using less energy and maximizing space, these fresh food merchandisers can be scaled with multiple units for any size operation, leading to a faster return on investment.

### Energy Efficient

Uses **82% less energy** than open air merchandisers, with an R290 condensing unit, featuring a variable speed compressor.

### Better Visibility

Merchandise **36% more food** with extended product visibility to showcase products in appealing views.

### Merchandise Flexibility

Solid shelves provide more options and flexibility for product merchandising formats and configurations.

### Options to Fit Your Space

Available in **multiple exterior colors and finishes.**

## Seamless Transition, Enhanced Performance, and Greater Convenience

Our new door-equipped merchandisers offer a seamless transition in existing floor plans due to their identical footprint as our open front merchandisers. These units are specifically designed to operate in Type II environments, ensuring trouble-free operation even in higher ambient and higher humidity conditions.

Customers can expect the same exceptional merchandising experience as our leading open merchandisers, featuring Breeze-E slide out refrigeration that simplifies routine maintenance. In addition to their reliability, these merchandisers provide enhanced convenience and accessibility. They can be positioned tightly against a wall or soffit, thanks to the zero clearance refrigeration system, offering greater flexibility in placement.
