For Immediate Release

## **Structural Concepts Receives ISO 9001:2015 Certification**

Structural Concepts Corporation has spent the past 50+ years delivering the most attractive, reliable, temperature-controlled display cases, when and where their customers need them

Building on its already stellar reputation of continuous improvement, the company has now been registered by Intertek as conforming to the requirements of ISO 9001:2015 applicable to the design and manufacturing of temperature-controlled food and beverage merchandising displays.

“We are proud of the work our entire organization has done to receive this certification,” said Joe Mockus, CEO of Structural Concepts. “We are relentlessly focused on delivering the highest quality, highest value products to our customers. This is a testament to our talented team members that apply the tools of operational excellence to continuously improve processes, reduce lead times, and eliminate errors – earning the trust of our customers with superior products and services.”

ISO 9001:2015 is an international standard that specifies requirements for a quality management system (QMS). A QMS is a set of policies, processes, and procedures that help an organization to provide products and services that meet customer and regulatory expectations. ISO 9001:2015 can be used by any organization, regardless of its size or industry, to improve its performance and customer satisfaction.

In addition to possessing ISO 9001:2015 certification, Structural Concepts’ merchandiser and display cases are certified to UL and NSF performance standards while also being compliant to both EPA and DOE regulatory requirements.

### *About Structural Concepts*

*Delivering Fresh. Always.*

*Since 1972, Structural Concepts Corporation has set the standard for the most innovative, turnkey refrigerated and heated food display solutions in the market by building merchandisers with the shortest industry lead times that last longer, save energy, and minimize operating costs, making it easier to better display and sell more fresh food today – and tomorrow.*
