DELIVERING FRESH. ALWAYS.™

# Product Guide

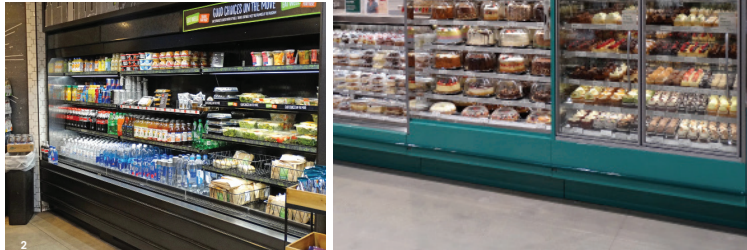

## Delivering Fresh. Always.

Since 1972, Structural Concepts has set the standard for the **most innovative, turnkey** refrigerated and heated food display **solutions** in the market.

Constantly innovating the art of fresh food presentation, making the desired more desirable and improving the protection of the perishable. Structural Concepts has spent the past 50+ years delivering the most attractive, reliable, temperature-controlled display cases, when and where you need them.

We are transforming the idea of what is possible, totally redefining the experience in the process. Whether it be identifying more ways to be the most reliable and advanced resource to our customers, designing and building merchandisers that last longer, save energy and minimize operating costs, or an unparalleled commitment to providing backend technical support. We are committed to making it easier to better display and sell more fresh food today - and tomorrow.

We strive to be the first choice for **workmanship, reliability, and sustainability** of products in the food merchandiser industry.

With operational excellence and continuous improvement as our cornerstone, we pride ourselves on strong partnerships with our team members, customers, suppliers, shareholders, and community.

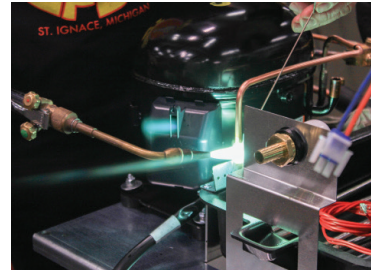

### Refrigeration Assembly

Structural Concepts designs and assembles its own refrigeration packages. This is a key factor in our strong refrigeration performance and energy-saving capabilities and affords us the flexibility to respond to changing regulatory standards.

### Certified R&D Test Labs

We have fully equipped ETL satellite-certified test labs. All of the labs are UL approved and designed to test display cases for optimum refrigeration performance and NSF 7 certification.

### Proprietary Refrigeration Design

Our company's foundation of unprecedented expertise in self-contained refrigeration has allowed us to pioneer award-winning technology that sets the standard for reliable products with unmatched ease of operation and strong performance.

### Sheet Metal Lasers

Structural Concepts is vertically integrated to optimize cost and lead time. We operate fully automated metal cutting with 3k and 6k fiber fiber lasers, which are capable of running lights out.

### Comprehensive and All-Inclusive

We also conduct our own in-house metal forming, fabrication, and finishing using a highly and dynamic systematic process. Our woodshop provides customer specified and designed insulated panels and our UV bonded glass production allows us to produce our frameless display merchandisers.

# Product Collection Guide

## Temperature

Refrigerated	Non-Refrigerated	Heated	Convertible
Blend Elevate Fusion Grocerant Harmony Oasis Reveal Allure	Addenda Blend Elevate Fusion Impulse Oasis Reveal	Blend Fusion Oasis Reveal	Harmony Oasis Reveal

# Exterior Finishes & Bumpers

## Powder Coat Finishes

Powder coat finishes not only complete and compliment store layouts, but the baked powder coat application process also provides our displays and merchandisers with a more durable finish.

For non-stock colors call your sales representative at SCC for pricing and availability.
