

## Fresh Food Anytime, Anywhere for Students

Generate More Sales and Profits with the Autonomous Retail Merchandiser

Structural Concepts is the only refrigerated manufacturer to design and manufacture a **complete smart solution** for autonomous shopping.

Offsetting labor challenges, an appealing refrigerated or ambient merchandising format with increased capacity, a cashier-less transactional system, and the ability to streamline inventory management, this single solution provides a quick payback turning into increased profitability.

## A Fully Automated Experience for Consumers and Operators

Automated Checkout allows shoppers to browse products directly on the shelf, have their selections automatically added to the cart, and pay with credit/debit and mobile payment for faster transactions.

For the operator, the autonomous solution tracks inventory and requires less labor, resulting in increased productivity.

Modern students want access to food outside of traditional mealtimes as well as during normal operating hours, while campus dining foodservice operators are striving to strike a balance between efficiency, self-service, reducing labor, and other needs.

**38%** of college students want dining options open 24/7.

*McKinsey*

More than **50%** of institutions polled are interested in mobile ordering and/or cashierless pickup.

*McKinsey*

Campus store/cafe traffic increased **21%** and average transactions grew **23%** in the months after going autonomous.

*Chartwells Higher Education Path Forward Survey*

Having automated options for checkout ranked higher and more important than having human checkout options.

*NACUFS Campus Dining 2030 and Beyond*

## ARM Features

-  Operates seamlessly in remote locations.
-  Safe and secure cashier-less transactions.
-  Holds 23% more product than other models; fewer and easier restocks.
-  Simplest and lowest flat fee structures.
-  Easy integration with existing payment systems.
-  Accepts most methods of payment.
-  Lowest overall operating costs.
-  Includes SCC's hallmark industrial design and features.

Integrates with Transact, Blackboard, Atrium, Cbord, SpotOn, Touchnet, and ITC Systems.

The consumer presents a payment method.

Once the payment method is authorized, the door unlocks, and the consumer is free to take the desired items off the various shelves.

When satisfied with their selections, the consumer closes the door, and the door instantly locks.

If the consumer is done shopping, they can either tap the "pay" button on the tablet screen or just walk away.

*If an item gets put back, it gets removed from the cart. If the item is put back in the wrong place, an alert is offered to the customer that the item has been placed in the incorrect spot and is still in their shopping cart until it is put back in the appropriate space.*
