

COMING SOON

New Age Verification Technology

Advanced ID Verification

Utilizes an ID scanner to read and authenticate government-issued identifications for age verification.

Business Protection

Helps prevent underage access to restricted items, ensuring compliance with regulations.

Enhanced Convenience

Speeds up transactions for modern consumers who value efficiency.

Cost Savings

Reduces labor costs by eliminating the need for a human cashier to verify age.

Target release: Summer 2025. Some states prohibit alcohol vending. Check your state and county laws for details.
