Structural Concepts®

DELIVERING FRESH. ALWAYS.™

Full Intelligence. Smaller Footprint.

Introducing the **ARM**SLIM

SD2826IS

Premium autonomous merchandising shouldn't be limited by space. Built from the same industry-leading DNA as our flagship ARM XL BD3632IS, the **ARM**SLIM delivers advanced, frictionless retail in a refined, compact frame — engineered to perform beautifully wherever your customers live, work, and play.

Designed to Elevate the Experience

With a slimmer design and the same trusted performance, the **ARM**SLIM embodies our commitment to innovation, reliability, and sophisticated simplicity — making fresh, premium, autonomous retail more accessible across more environments than ever before.

Big Capability. Slim Design.

We maintained the trusted performance you count on and streamlined the design to deliver greater placement flexibility.

The same high-performance features you expect:

Smart AI Sensing
Precision weight sensors and computer vision for 99.9% transaction accuracy.

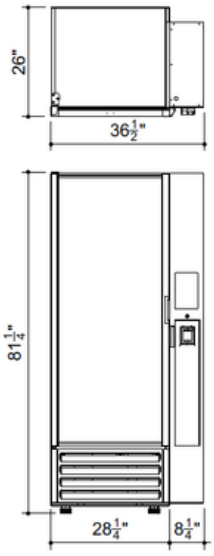

Seamless Checkout
True grab-and-go experience that eliminates lines.

Real-Time Analytics
Cloud-connected insights inventory management and consumer insight tools.

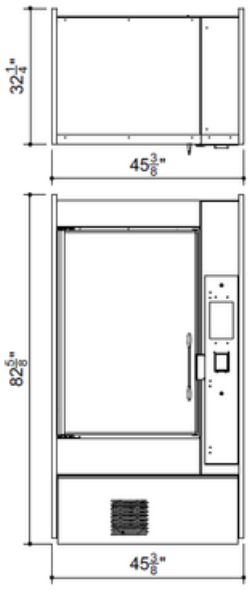

Robust Security
Multi-layered theft prevention and secure payment processing.

Why Go Smaller?

Purpose-Built for High-Value, Compact Spaces.

Turn overlooked or constrained footprints into productive sales generating environments.

Ideal for:

✔ **Office Breakrooms** — Premium, fresh offerings without crowding shared spaces.

✔ **Boutique Hotels** — 24/7 amenities placed exactly where guests need them.

✔ **High-Traffic Corridors** — Transform unused areas in transit hubs, hospitals, or campuses into revenue-generating micro-stores.
