

Refrigeration Anywhere

REFRIGERATION ANYWHERE

When it comes to improving sales in your store, design and layout are crucial. But without the proper equipment, you simply can't create the ideal shopping (or selling) experience. With Mobile Oasis® Island units from Structural Concepts, you can position refrigerated goods anywhere in your store, improving the buying experience for your shoppers while incorporating unique upsell and impulse-buying opportunities.

Structural Concepts offers two variations of its Mobile Islands: the MIR model and the MIRF model. The MIR model is made to display refrigerated goods, and the MIRF model is made to display refrigerated goods and frozen goods.

THINK OF THE POSSIBILITIES

- Create impulse hot spots
- Daypart merchandiser flexibility
- Cross merchandise within department
- "What's For Dinner" meal solutions
- Promotional placements

ISLAND SIZES

MIR

3'x2'	3'x3'	3'x6'	
4'x4'	4'x5'	4'x6'	4'x8'

MIRF

4'x4'	4'x6'
-------	-------

MIR

SIMPLE & EASY. Toggle switch communicates with the controller to automatically change set points to yield desired case temperatures.

Slide-out refrigeration system provides complete and easy access to all components for efficient maintenance and service, no tools required.

Clean Sweep® automatic condenser coil cleaner option available. This electronically controlled brush mechanism automatically cleans dust and debris from the condenser coil daily.

A+ PERFORMANCE. Air flow design and deck perforations provide a consistent and balanced temperature range throughout the product area.

Product display height of 8-1/4" provides additional capacity with exceptional visibility and easy customer access.

Breeze with EnergyWise self-contained refrigeration provides dependable consistent product temperature.

MIR

MIRF

VERSATILE. Three temperature settings, 0°F (frozen), 38°F (red meat) & 40°F (ref. product), allow operator to easily vary case temperature to provide the appropriate product environment for intended display use.

Air discharge design features a small heated insulated glass top panel and acrylic plenum to create a durable and permanent air chute.

Locking casters provide easy mobility.

BUILT TOUGH. Corrosion resistant stainless steel inner tub and fan shroud and coated evaporator coil available. Special corrosion resistant pre-coat applied before paint to protect surfaces from harsh cleaners and product juices.

All internal components are easily removed for cleaning.

Plug and play mobile design allows display to be moved wherever needed in store.

ABOUT STRUCTURAL CONCEPTS

Established in 1972, Structural Concepts is a leading innovator of temperature-controlled food display cases for retail operators. Our pioneering, award-winning technology sets the standard for unmatched ease of operation, longer life, and stronger performance - providing operators with dramatically increased sales and reduced operating expenses. This innovative engineering and dedication to industry-leading research and development results in one-of-a-kind technologies that you'll only find with us.
